

# Browsing online, but never see houses you like? **We get the dream homes first.**

---

## Our Network

Our Family of Companies is Michigan's largest and leading real estate network with over 2,000+ other agents. We have homes that are about to come on the market for every price range.

## Coming Soon!

No other brokerage has access to as many Coming Soon listings as we do. We get the information first with exclusive Sneak Preview notifications. This market moves at an incredibly fast pace. We'll often connect a buyer to a seller before the listing can even go live on the popular marketing sites.

## Neighborhood Search

Sometimes it takes some extra research to find the perfect home. Once we understand what is important to you for your new home, we identify homes with those features and reach out to them via target ads, mail, social media and direct contact to see if any would have an interest in selling. In a fast moving market, we don't leave any stone unturned!
